SECTION I – BACKGROUND

A. Introduction

The Montgomery County Department of Transportation is soliciting grant applications for the County's FY 2023 Targeted and Specialized Mobility Grant Program from qualified organizations providing direct transportation services in the County. The County Executive proposed \$1 million to establish both a capital and operating grants process using funds from the Transportation Services Improvement Fund in the Fiscal Year (FY) 2023 Recommended Budget. The County Council approved \$800,000 for a joint capital and operating grant program with \$640,000 for capital projects and \$160,000 for operating projects. These approved amounts are reflected in the FY23 Operating Budget in Resolution 19-1290 on May 26, 2022. At present, the County Council has made this funding available for one year so all funded activities must be implemented within 12 months.

As charged in Bill 36-19, the Office of Grants Management provides a central point of contact regarding the grants that the County receives or awards. Office of Grants Management also develops countywide policies and procedures regarding grants management and ensures these are consistent with racial equity and social justice goals, performs outreach regarding grants offered by the County and other grants functions.

B. Funding Areas

The focus of the grant program is to provide capital resources that support direct services and/or support that improves the delivery of transportation related services for:

- Individuals who are disabled.
- Senior residents.
- Individuals with low or limited incomes.

Capital expenses eligible for funding include, but are not limited to, the following:

- accessible transportation services for individuals who are disabled, seniors, and/or individuals with limited incomes.
- the purchase or retrofit of a vehicle that improves accessibility, such as a wheelchair accessible vehicle or modification, to provide transportation to County residents within the target population
- the purchase of a traditional sedan to transport County residents within the target population;
- the purchase of a vehicle that would be used to address food access, food insecurity, clothing, medical, and other safety net needs for County residents within the target population.

Organizations seeking support for operating expenses such as salaries, vehicle maintenance, supplies, insurance, vouchers, or other operating costs should apply to the [FY23 Targeted and Specialized Mobility Operating Grant Program](#). If an applicant is not sure whether an expense counts as an operating or capital cost, they should contact the Office of Grants Management for clarification.

To be considered for funding proposals MUST include targets for the following metrics and a plan to track them for a full calendar year (12 months):

- Total number of trips provided.
- Total number of individuals served
- Breakdown of the purpose of each trip (I.e. delivery of food, clothing, and/or medical supplies; transportation to or from a medical appointment, transportation of a resident to a homeless shelter or other housing; transportation of a senior to a recreation event, etc...)

Further details on metric tracking expectations and can be found on page 13 below under the Performance Plan portion of the Application.

Priority in awarding funding will be given to:

- Organizations that demonstrate a commitment and experience with providing transportation, public health, and/or community benefit services to at least one of the vulnerable populations listed above;

Program Budget: The budget for this proposal shall contain detailed itemized cost information that shows direct and indirect costs. The Program Budget will be uploaded as an attachment to the application. The grant program does not require a standard budget template so applications should use whatever format meets the basic requirements, provides sufficient detail, and provides the best overview of expected

costs under the proposed program.

In additions to limitations set in this program, program funds cannot be used:

- For lobbying;
- To cover any expenses made prior to the grant award;
- To supplant (replace) funds from other grant sources; or
- To provide services that wholly occur outside of Montgomery County. For example, taking a senior living in Silver Spring to a medical appointment in Baltimore and returning them home would be allowed. Transportation services within Baltimore alone would not.

Budget Narrative/Justification: In addition to a Program Budget, the proposal must include a Budget Narrative/Justification, one (1) page limit, that should briefly describe the proposed expenditures, including the purpose or reason for the capital expenditure and an explanation of calculation of costs. The Program Budget/Narrative Justification will be uploaded as a pdf attachment within the application platform.

Program Work Plan/Timeline: This section should outline the implementation schedule of the proposed program over a maximum 12-month grant performance period. The Program Work Plan/Timeline should have a one (1) page limit and will be uploaded as a pdf attachment within the application platform. The implementation schedule over the performance period should list the program's objectives and related activities, timeline for implementation and completion, and responsible staff. The performance period may assume specific start and completion dates or cover a generic period of time. The final performance period for an award will be contingent on when the actual grant agreement is signed by all parties. Due to the time needed to review applications and finalize grant awards, proposed programs should not assume a start date earlier than January 1, 2022.

Performance Plan: This section must include the Key Performance Indicators (KPIs), metrics, and/or milestones that create a Performance Plan for your proposed

program. Provide an outline of the metrics to be collected, targets for each metric, and the data collection method for each metric as well as any qualitative evaluation methods the program will be using. This program requires that proposals track the following metrics:

- Total number of trips provided.
- Total number of individuals served
- Breakdown of the purpose of each trip (I.e., food, clothing, and/or medical supply delivery; transportation to or from a medical appointment, transportation of a resident to a homeless shelter or other housing; transportation of a senior to a recreation event etc...)

As an optional set of metrics, applicants are encouraged to set targets and a collection method for demographic information on the population to be served; as feasible and without impacting the program outcomes.

The Performance Plan should have a one (1) page limit and will be uploaded as a pdf attachment within the application platform. The performance indicators must be important to the selected Funding Areas for your proposed program.
